

Real Property Summary And Site Statistics for Fiscal Year 2006 Quarter 2

Assistant Chief of Staff for Installation Management (ACSIM)

DAIM-ZS

Audrey C. Ormerod

Army Real Property Program Manager

Date: 17 April 2006

Prepared by: R&K Engineering, Inc

FOREWORD

This report summarizes and analyzes the changes associated with the 31 March 2006 update to the Headquarters Executive Information System (HQEIS) database. The database was locked on 4 April 2006. HQEIS and the Greenbook are used by OACSIM staff to document quarterly changes to the Real Property Inventory.

Beginning with this quarter PRV is shown in thousands (\$K) instead of millions (\$M).

The real property information displayed in this book is a summary of the source information contained in HQEIS. The facilities included have ownership codes (OC) of government-owned (OC=1), leased (OC=2,6,C,D,E), permits/licenses/other (OC=3,4,5,7), and privately-owned (OC=8,G,P). Total square feet excludes category code 72520 (Tent Pads) and 72590 (other). At the present time, 19 USARC installations are included in the IMA Regions; 11 of these installations are under the control of Fort Dix (Northeast Region), 3 under the control of Fort McCoy (Northwest Region), 4 under the control of Parks Reserve Forces Training Area (Southwest Region), and 1 under the control of NERO BRAC sites (Northeast Region).

Key changes this quarter include:

- Four (4) installation were added and 8 installations were dropped from this quarter's real property inventory (RPI). Of the installations dropped: 1 installation was a BRAC 2005 closures (06865 Hazard Park USAR Center), 1 installation was transferred to Navy (51710 BG John Cropper Mem USARC), 1 was transferred to US Dept of Interior Forest Service (27945 Trott Memorial USARC), 1 was transferred to the Ellis School in exchange for construction, and 3 were lease terminations etc. See Section 2.2 for a complete list of installation additions, disposals and transfers.
- Total building square footage (BSF) increased 2,491,125. Looking at the BSF gains and losses separately, there was an overall increase of 5,515,467 BSF and a decrease of 3,024,342 BSF. See Section 2.3 for explanation of BSF changes.
- Total land acres decreased 26,984.64. Looking at land acre gains and losses separately, there was an increase of 129.79 acres and a decrease of 27,114.43 acres. See Section 2.3 for an explanation of land acreage changes.
 - The majority of the acreage increase was due to: addition of 57.80 acres at 51315 Fort Lee.
 - The majority of the acreage decrease was due to: disposal 113.00 acres at KS042 Bayonet Training Area; disposal of 302 acres at KS244 Camp Page; disposal of 150.90 acres at 31135 Cornhusker AAP which was an excess installation; disposal of 135.49 acres at 47855 Volunteer AAP which was an excess installation; disposal of 169.83 acres at 48265 Fort Sam Houson; disposal of 732.00 acres at 04989 Florence Military Reservation; disposal of 133.3 acres at 28475 CTA Camp McCain; and 25,193.00 acres at 39430 Ravenna Training and Log Site.

Section contents are as follows:

Section 1 - Summary Statistics includes real property inventory comparisons from this quarter to the prior quarter. Data is grouped by United States (U.S.), U.S. Territory (U.S. Ter), and Overseas (which excludes U.S. Territories). This section also includes statistics by Region and Ownership code.

Section 2 - Significant Changes from Last Quarter. Section 2.1 includes a trend of building square feet from FY 1989 to present; broken out by ownership and Region/MACOM. Section 2.2 includes a list of installations that were added or deleted/transferred/disposed during the quarter. Section 2.3 includes a list of installations with significant changes in land acreage, building square feet and paved square yards.

Section 3 - BRAC Realignment and Closure Square Feet and Land Acre Analysis has been changed to reflect data that is within HQEIS and the data can be easily calculated. Section 3.1 includes a breakout of each BRAC closure and BRAC realignment sites; Section 3.2 includes a trend of building square feet for BRAC closures; and Section 3.3 includes real property statistics for Excess installations.

Section 4 - Square Feet by Using Organization. Using Organization is one of five S/RM codes added to the real property inventory in FY 2002 Qtr 4. Using Organization along with Sustainment Organization and Fund Code, and the Replacement Organization and Fund Code will allow the Army to better break out the RPI. These codes were added at the request of OSD and are listed in DODI 4165.14 and DA PAM 405-45. This section summarizes building and structure square feet by Using Organization (tenant/user).

Section 5 - Building Square Footage by Ownership Code.

Section 6 - Historical Facility Count. At the request of the Cultural Resource Office, the data shown in this section only includes government-owned facilities located within the U.S. and U.S. Territories. Due to the Residential Communities Initiative (RCI), the number of historical facilities shown as government-owned may gradually reduce. However, as installations work with their Cultural Resource Office, the number of historical facilities identified may/may not increase. Section 6.4 was added this quarter to trend historical buildings; all other views within this section show all facility types.

Section 7 - Installation Statistics includes 5 sections. Section 7.1 provides real property inventory statistics by state, Section 7.2 provides real property statistics by Region/MACOM, Section 7.3 provides real property statistics by base code, Section 7.4 provides a list of installations that have no base code, and Section 7.5 provides installation building square feet by ownership code. Beginning with this quarter PRV is shown in thousands instead of millions.

Real property inventory data and trend analysis information can be provided by: DAIM-ZS (Ms. Audrey C. Ormerod, 703-602-5180)

TABLE OF CONTENTS

Section	Section Description	Page No
	Foreword	i
	Table of Contents.....	v
1	Summary Statistics.....	1
	1.1 RPI Statistics Comparison this quarter to prior quarter	1
	1.2 RPI Statistics - Increases/Decreases	1
	1.3 RPI Statistics by Ownership Code.....	2
2	Significant Changes of Building Square Feet.....	4
	2.1 Trend of Building Square Feet Reported by Fiscal Year	4

Section 2 - Significant Changes of Building Square Feet

Section 2.1 - Trend of Changes in Millions of Building Square Feet (MSF)

Since 1989, the trend of Army-owned building square feet (ownership code=1) has steadily decreased - 172.789 MSF; this may be in part due to the transfer of housing to RCI contractors, BRAC closures, etc. Total Privately-owned square feet (ownership codes 8, G, and P) has increased to 104.552 MSF. Residential Communities Initiative/ Commercial Ventures Initiative (RCI/CVI) ownership code (OC=G) was not available at Integrated Facilities System (IFS) sites until FY 2002, Privately-Owned ownership code (OC=8) was not available until FY 1995, and Public/Private Venture (OC=P) was not available until 2004. The overall trend of property owned, permitted/leasesend, leased, and privately-owned property used by the Army has decreased by 205.564 MSF. In addition, Europe Region has had over 157.627 MSF in reductions and returns to host nations, and Korea has increased by 9.437 MSF. World War II Wood building square feet (year built between 1939 and 1946 with a temporary construction) has been reduced by 68.014 MSF (this includes all ownership codes).

Note: Only every other year is shown until FY2000 (FY00).

Ownership codes (OC) are 1-8, C, D, E, P, and G unless specified.

This section excludes Relocatable Facilities

Northwest:

NORTHWEST 08005 FORT CARSON	08407 PINON CANYON		235,896.20	235,899.90	3.70									
Comment 4/7/06 from NWRO: Error has been corrected in IFS. This was a new facility record which was loaded in error. Record has been put in as an RPI Deletion.														
NORTHWEST 08605 ROCKY MOUNTAIN ARSENAL	08605 ROCKY MOUNTAIN ARSENAL	Y	11,168.86	11,171.32	2.46									
Comment 4/7/06 from NWRO: verified change to RPI. Exchange-in-Kind, with USAR, gave up 5.19 acres, and picked up 2.46 acres. This is part of the Reserve Center exchange that we did in September 2003. We gave the Reserves 5.19 acres and got back 2.46 acres for a net loss of 1.73 acres to Rocky Mountain Arsenal.														
NORTHWEST 20395 FORT LEAVENWORTH	20395 FORT LEAVENWORTH											9,939,013	1,912,013	-8,027,000
Comment: 1 administrative correction of a previous large error: This was actually the correction of an error from the previous quarter - too many square yards were entered into IFS (a typographical error). The erroneous entry was voucherred and corrected on January 9th, therefore, the huge decrease in square yards.														
NORTHWEST 29995 FORT LEONARD WOOD	29995 FORT LEONARD WOOD						13,221,434	12,912,998		-308,436				
Comment 4/7/06 from NWRO: verified change to RPI . FLW entered the RCI Housing demolitons, over 315,000 SF (AFH) was removed from the inventory.

Beginning with FY 2005, BRAC 93 realignment Installation 06305 Presidio of Monterey (POM) was replaced with 06385 POM Annex (now Seaside)

The reason for this change is that POM Annex was part of Presidio of Monterey (main post) until 1998 when it was split into two installations.

Therefore, no data will show for FY 93 because it was part of POM.

As of FY 2005 Qtr2, Installation 24402 - Jefferson Nike Site was erroneously reported as a BRAC closure and it has been removed from the list.

As of FY 2006 Qtr1, Installation 36790 - Fort Totten was erroneously reported as a BRAC closure and it has been removed from the list.

Please note for BRAC 2005 Closures and Realignments, this list is based upon the latest available information from HQDA and USARC; therefore, this list is subject to change. Also note that BRAC 2005 information does not include National Guard closures or realignments.

Real Property Summary and Site Statistics for FY 2006 Otr 2 (31 March 2006)

Beginning with FY 2005, BRAC 93 realignment Installation 06305 Presidio of Monterey (POM) was replaced with 06385 POM Annex (now Seaside).

The reason for this change is that POM Annex was part of Presidio of Monterey (main post) until 1998 when it was split into two installations.

Therefore, no data will show for FY 93 because it was part of POM.

As of FY 2005 Qtr2, Installation 24402 - Jefferson Nike Site was erroneously reported as a BRAC closure and it has been removed from the list.

As of FY 2006 Qtr1, Installation 36790 - Fort Totten was erroneously reported as a BRAC closure and it has been removed from the list.

Please note for BRAC 2005 Closures and Realignments, this list is based upon the latest available information from HQDA and USARC; therefore, this list is subject to change. Also note that BRAC 2005 information does not include National Guard closures or realignments.

Real Property Summary and Site Statistics for FY 2006 Qtr 2 (31 March 2006)

Date: 17 April 2006

Section 3.1 - BRAC Closure and Realignment Square Feet Analysis (Structures and Buildings) and Land Acreage

Note: Delta is based upon when the installation was last identified as a Closure or Realignment
 Installations that were both a Realignment and Closure and listed with Closures and annotated as 'TYPE = Closure*'; e.g., 05025 FORT CHAFFEE
 Ownership codes are 1-8, C, D, E, P, G, and F unless specified

This section excludes Relocatable Facilities.

Beginning with FY 2005, BRAC 93 realignment Installation 06305 Presidio of Monterey (POM) was replaced with 06385 POM Annex (now Seaside). The reason for this change is that POM Annex was part of Presidio of Monterey (main post) until 1998 when it was split into two installations.

Therefore, no data will show for FY 93 because it was part of POM.

As of FY 2005 Qtr2, Installation 24402 - Jefferson Nike Site was erroneously reported as a BRAC closure and it has been removed from the list.

As of FY 2006 Qtr1, Installation 36790 - Fort Totten was erroneously reported as a BRAC closure and it has been removed from the list.

Please note for BRAC 2005 Closures and Realignments, this list is based upon the latest available information from HQDA and USARC; therefore, this list is subject to change. Also note that BRAC 2005 information does not include National Guard closures or realignments.

Real Property Summary and Site Statistics for FY 2006 Otr 2 (31 March 2006)

Date: 17 April 2006

Beginning with FY 2005, BRAC 93 realignment Installation 06305 Presidio of Monterey (POM) was replaced with 06385 POM Annex (now Seaside). The reason for this change is that POM Annex was part of Presidio of Monterey (main post) until 1998 when it was split into two installations.

Therefore, no data will show for FY 93 because it was part of POM.

As of FY 2005 Qtr2, Installation 24402 - Jefferson Nike Site was erroneously reported as a BRAC closure and it has been removed from the list.

As of FY 2006 Qtr1, Installation 36790 - Fort Totten was erroneously reported as a BRAC closure and it has been removed from the list.

Please note for BRAC 2005 Closures and Realignments, this list is based upon the latest available information from HQDA and USARC; therefore, this list is subject to change. Also note that BRAC 2005 information does not include National Guard closures or realignments.

Real Property Summary and Site Statistics for FY 2006 Qtr 2 (31 March 2006)

Date: 17 April 2006

Section 3.1 - BRAC Closure and Realignment Square Feet Analysis (Structures and Buildings) and Land Acreage

Note: Delta is based upon when the installation was last identified as a Closure or Realignment
 Installations that were both a Realignment and Closure and listed with Closures and annotated as 'TYPE = Closure*'; e.g., 05025 FORT CHAFFEE
 Ownership codes are 1-8, C, D, E, P, G, and F unless specified

This section excludes Relocatable Facilities.

W	EUSA	EIGHTH US ARMY	
X	USARSO	USA SOUTH	
Y	ATEC	USA TEST AND EVAL COMMAND	

APPENDIX B - Glossary

Abbrev	Full Name	Definition
Base	Base Code	The code identifying the base installation, which is an operational grouping of installations, used for planning and analysis purposes only. HQDA (ACSIM) uses base installations for reporting to DOD and Congress. Base Codes are assigned at HQDA level and cannot be changed by a MACOM or installation. (This data element is the responsibility of the ACSIM staff.) (Reference: DA Pam 405-45)
Base State/Cntry	Base Code's State or Country	The first 2 digits of an installation number annotates the installation's state or country in which it is located.
BRAC Cls Rnd	BRAC Closure Round	Annotates the Base Realignment and Closure Round that the installation was assigned to.
BRAC 1988 Instl Closures		Annotates installations that were identified for closure under BRAC I (1988).
BRAC 1991 Instl Closures		Annotates installations that were identified for closure under BRAC 1991.
BRAC 1993 Instl Closures		Annotates installations that were identified for closure under BRAC 1993.
BRAC 1995 Instl Closures		Annotates installations that were identified for closure under BRAC 1995.
BRAC 2005 Instl Closures		Annotates installations that were identified for closure under BRAC 2005.
Curr FY/Qtr	Current Fiscal Year/Quarter	
Excess Instl?	Excess Installation ?	Annotates whether the installation has been declared as excess.
Facno	Facility Number	A unique, five-digit alphanumeric assigned to a real property facility within an installation for identification through its life cycle. For new buildings, try to use the building number to facilitate periodic inventories. This must be a five-position field. A facility number may be either a building, structure, utility or land. (Reference: DA Pam 405-45)
DispProg	Disposal Program	Facilities have a planned disposition code of G=FRP TARGET, H=MCA AND FOOTPRINT DISPOSAL, J=ONE-FOR-ONE DISPOSAL, or W=LAYAWAY WITH FRP CREDIT.
FY/Qtr	Fiscal Year/Quarter	Annotates fiscal year and quarter of data.
Instl	Installation Number	The official number assigned to an installation for identification purposes. Its principal use is to provide continued and positive identification of the installation. Installation numbers for existing installations may be obtained from existing real property inventory records. Installation numbers for new Federal installations will be obtained from ACSIM. For State-owned installations, NGB will assign a unique number with an alphabetic character in the third position of the Installation Number. In USAREUR, ARLOCs are used as the installation numbers for sites other than parent installations, for example, Off Post Housing and leased warehouse. (Reference: DA Pam 405-45)
Instl Name	Installation Name	The official name given an installation. Names should agree with designations published in official directives or be otherwise properly assigned and approved by the commander. To facilitate continuity of records, names applied to new installations in those areas where the command has authority to act should ensure their retention over time. Do not use names of occupying units as these change over time. Use the convention of Fort Belvoir or Camp Shelby, not Ft Belvoir, Belvoir Fort, or Shelby Camp. Do not use any special characters in the name such as a dash, underscore, parenthesis, ampersand sign, plus sign, percent sign, or quotation marks. The installation name should meet criteria set forth in AR 1-33, Memorial Program. (Reference: DA Pam 405-45)
Instl State/Cntry	Installation State or Country	The first 2 digits of an installation number annotates the installation's state or country in which it is located.
Leased	Leased	Facility has an ownership code of 2, 6, C, D, or E.

Real Property Summary and Site Statistics for FY 2006 Otr 2 (31 March 2006)

Date: 17 April 2006

Abbrev	Full Name	Definition
MACOM	Major Command Code	A code identifying the Army Major Command having responsibility for most installation missions. (Reference: DA Pam 405-45) See Appendix A for a list of MACOM's.
MSF	Millions of Square Feet	Sum of square feet in millions; excludes category code 72520 (Tent Pads).
Other Private	Privately-Owned	Facilities have an ownership code of '8' (privately-owned) or 'P' (Public Private Partnership). Ownership code of 'G' (RCI/CVI) is also considered privately-owned, but for the purposes of this book only '8' and 'P' are shown under 'Other Private'. (Reference: DA Pam 405-45).
OC	Ownership Code	The ownership codes are used to identify the type of facility ownership or the DoD legal interest, right, or title to a land parcel or other facility. (Reference: DA Pam 405-45)
Own	Ownership Code	The ownership codes are used to identify the type of facility ownership or the DoD legal interest, right, or title to a land parcel or other facility. (Reference: DA Pam 405-45)
Own Desc	Ownership Description	The description of the ownership code. (Reference: DA Pam 405-45)
Owned	Owned	Facility has an ownership code of '1'.
Overseas	Overseas	Includes installations in Belgium (BExxx), Germany (GExxx), Italy (ITxxx), Japan (JAxxx), Korea (KSxxx), Luxembourg (LUxxx), Netherlands (NExxx), Panama (PMxxx), Virgin Islands (VQ), and United Kingdom (UKxxx) and all other property not included in above paragraph. Excludes Alaska and Hawaii.
Permit/Other	Permit/Other	This includes facilities with an ownership code of '3' (permit other than military), '4' (permit from Navy or Air Force), '5' (NATO), or '7' (agreement).
Prime	Primary Installation Number	A Department of Army number assigned to an installation that has been designated real property accountability or maintenance responsibility for one or more subordinate installations. (Reference: DA Pam 405-45)
Privately-Owned	Privately-Owned	Facilities have an ownership code of '8' (privately-owned), 'G' (RCI/CVI), or 'P' (Public Private Partnership). Reference: DA Pam 405-45).
Prior FY/Qtr	Prior Fiscal Year/Quarter	
PRV	Plant Replacement Value	The dollar amount required to replace a facility with current year dollars.
RCI/CVI	Residential Commercial Initiative/Facilities have an ownership code of G (RCI/CVI); these are considered as privately-owned. Commercial Ventures Initiative	Reference: DA Pam 405-45).
Region	Region Code	The designated Installation Management Agency Region that provides support and direction to the Installation support activities. (Reference: DA Pam 405-45)
Region/MACOM	Region or MACOM	Region or Macom Name.
U.S.	United States	Includes Continental United States, Alaska and Hawaii. This includes installation numbers beginning with 01-99.
U.S. Ter.	United States Territory	This includes Guam (GQxxx), Kwajalein (NQxxx), Northern Mariana Islands (CQxxx), Puerto Rico (RQxxx), & American Samoa (AQxxx).
User Org Cd	Using Organization Code	A two-digit code that identifies the user or users of a facility. In the case of buildings the user is the actual occupant(s) that is physically occupying or using all or part of a facility, or if vacant, then the responsible organization. For structures and utilities, define the user as the organization that has replacement responsibility for the facility. More than one code is allowed if a building has multiple users with different codes. Not applicable for land records (9XXXX). (Reference: DA Pam 405-45)
WWII Wood	World War II Wood	Facilities with a facility type = 'B' (Building), year_built between 1939 and 1946, and type construction code = 'T'(temporary).

Abbrev	Full Name	Definition
USAREUR	USA Europe	Identifies installations that have a MACOM = M (Europe).
Using Org Cd	Using Organization Code	Identifies user/tenant of a facility. Codes are identified in DA Pam 405-45 and DODI 4165.14.
Using Org Abbrv	Using Organization Abbreviation	Abbreviation of Using Organization Code's Name. Identifies user/tenant of a facility. Codes are identified in DA Pam 405-45 and DODI 4165.14.

Summary Level Information:

Base Cnt	Base Count	Count of distinct base codes.
Bldg Cnt	Building Count	Count of distinct installation and facility number combinations where the facility type = 'B' (building).
Facno Cnt	Facility Count	Count of distinct installation and facility number combinations. This count <u>includes</u> buildings, structures, utilities, and land facilities.
Instl Cnt	Installation Count	Count of distinct installation numbers.
Prime Cnt	Primary Installation Count	Count of distinct primary installation numbers.
Paved SY	Paved Square Yards	Sum of gross area assigned where the facility type = 'S' (structure) and category code uml='SY' and the category code is considered to be paved.
Land Acres	Land Acres	Sum of gross area assigned where the facility type = 'L' (land), category code uml = 'AC' and the design use category code begins with '91' or '92'.
<u>Square Feet:</u> Excludes category code 72520 (Tent Pads).		
Bldg SF	Building Square Feet	Sum of gross area assigned where the facility type = 'B' (building) and ownership code = 1-8, C, D, E, G, or P
Leased SF	Leased Square Feet	Sum of gross area assigned where category code uml = 'SF'(square feet) and ownership code = 2, 6, C, D, or E
Owned SF	Owned Square Feet	Sum of gross area assigned where category code uml = 'SF'(square feet) and ownership code = 1
Permit/Other	Permit/Other Square Feet	Sum of gross area assigned where category code uml = 'SF'(square feet) and ownership code = 3, 4, 5, or 7
Other Private SF	Other Privately-Owned Square Feet	Sum of gross area assigned where category code uml = 'SF (square feet) and ownership code = 8 or P
RCI/CVI	RCI/CVI Square Feet	Sum of gross area assigned where category code uml = 'SF (square feet) and ownership code = G
Total SF	Total Square Feet	Sum of gross area assigned where category code uml = 'SF'(square feet) and ownership code = 1-8, C, D, E, G, or P
